What have we taught this year? (Detail all the curriculum areas covered)

Aims

All pupils are taught to:

- develop competence to excel in a broad range of physical activities
- are physically active for sustained periods of time
- engage in competitive sports and activities
- lead healthy, active lives

Key stage 2 pupils are taught to apply and develop a broader range of skills building on those introduced in KS1. They are also taught to use them in different ways and to link them to make actions and sequences of movement.

They are encouraged to enjoy communicating, collaborating and competing with each other.

They develop an understanding of how to improve in different physical activities and sports and learn how to evaluate and recognise their own success.

Pupils at JPS are taught to:

- use running, jumping, throwing and catching in isolation and in combination
- play competitive games, modified where appropriate [for example, badminton, basketball, cricket, football, hockey, netball, rounders and tennis], and apply basic principles suitable for attacking and defending

- develop flexibility, strength, technique, control and balance [for example, through athletics and gymnastics]
- perform dances using a range of movement patterns
- take part in outdoor and adventurous activity challenges both individually and within a team
- compare their performances with previous ones and demonstrate improvement to achieve their personal best.

Swimming and water safety

Pupils are taught to:

- swim competently, confidently and proficiently over a distance of at least 25 metres
- use a range of strokes effectively [for example, front crawl, backstroke and breaststroke] perform safe self-rescue in different water-based situations.

Review of year (Successes/Development areas)

MM has continued to develop the skills-based curriculum which has been really successful.

MM has focused lessons on gameplay and how to use the skills within matches. This has worked really well as it has enabled children to develop the skills in a real context and to know why they use them. This has been a greater change for Years 3&4 who previously have not focused on match play in curriculum lessons.

MM has seen a really good increase in children's understanding of game tactics and strategy which has led to higher quality sports play overall.

JPS has enjoyed good results in a wide range of sports competitions this year. The school won the dodgeball competition for the first time ever and this was a huge success. Teams also were runners up in the Moving Matters and Lambeth Netball competitions. Football has continued to bring the school a great deal of success, particularly the Year 3&4 girls team. They achieved first place in 3 competitions over the course of the year and represented Lambeth at the London Youth Games. They finished 3rd in London, only losing narrowly to Bromley who went on to win the competition. This was the biggest success the school has had (or at least in the 10 years MM have worked with us).

MM introduced American Flag Football this year to the children and it was a big hit! The school represented Lambeth at the London Youth Games which was a brilliant experience for the children.

Even better if...

Financial pressures have resulted in a reduction of provision by MM overall with specialist staff now only providing teaching PE in KS2. KS1 teachers now take full responsibility for the teaching of PE in their phase. Historically the children have benefitted from the expertise of specialist coaching and it is a shame there is no longer the funding to support this.

School Targets 2023-24.

Objective 1: To continue to create opportunities for children to participate in competitive sports inside and outside of school.
Achieved target? Yes Barriers that prevented success?
Comments: This year has been really successful for competitions. Children have taken part in a number of competitions and competed across a range of sports. The teams have enjoyed success, winning 5 competitions and coming second in a further 5 competitions. We have also continued to offer pathways to extra-curricular clubs such as Moving Matters Soccer School, Julian's FC as well as Brixton Bulls Rugby League Club.
Objective 2: To make physical activity habitual across the school through engagement in PE and sport - for eg through the Moving Matters daily mile.
Achieved target? Ongoing Barriers that prevented success?
Comments: MM always aims to make the PE lessons as active and engaging as possible. This year MM has had a focus on teaching through more match play. Most children are more engaged when playing matches rather than manufactured 'drills' - therefore the enjoyment of the lessons has increased overall. MM also aims to let children play against other children of a similar ability to allow all children to access competitive sports at an appropriate level.
Objective 3: To offer children an opportunity to participate in extra sport through after school clubs.
Achieved target? Yes Barriers that prevented success?

Comments: We have developed the after school club provision again this year. We have continued to offer a multi-sport club for KS1 & KS2 as well as participation in football and athletics clubs. These clubs allow everyone the chance to access a wide range of sports across the year.

This year also saw an expansion of the sports squads at Julian's. The boys and girls football squads continued as well as new squads, in netball and for the gifted & talented. The netball squad has been really successful and achieved 2nd place in 2 competitions. The gifted and talented group has also been really positive and members of the group participated in the dodgeball, tag rugby and flag American football competition. This squad has been introduced to challenge the more proficient team players in a high quality environment.

Additional provision/opportunities

Sports days -

Yearly Sports Days: Reception and Year 1 had their Sports Days at their sites, with teachers supporting and leading teams, alongside MM.

Sports Days for Years 2, 3 and 4 took place at St Joseph's playing fields, with teachers supporting teams.

Unfortunately, Year 5 and 6 were unable to attend their Sports Day, due to heavy rain.

MM organised and provided the sporting equipment for all the Sports Days.

The children also had additional help from the Streatham & Clapham sports staff and students.

Suggested targets for 2023-24:

Even better if...

School equipment

MM will complete an inventory audit of all the equipment we have for next year. There will need to be continued replacement of key equipment. Storage and maintaining the PE cupboards and equipment continues to be a challenge.

PE provision

Ensuring that the quality of PE is maintained if there are key staff changes
