Supporting your child with fears and worries

Webinar for Julians' parents/carers

Lambeth Mental Health Support Team and **Lambeth Autism Advisory Service** are running a 45 minute webinar for parents and carers of children affected by the closure of the Streatham site.

We will discuss some common worries children might have, and some strategies to help with these.

We will also signpost parents/carers to further support, if needed.

The webinar (via **Microsoft Teams**) will be repeated twice. Attend a webinar using the QR codes or links below:
