26 February 2026

Dear Parents/Carers,

We had hoped to meet with the school community earlier this term to update you on the progress at our Leigham Court Road site, but frustratingly, we have not had any news to share until now. However, we are pleased to inform you that the preliminary roof works have been completed this week and include:

- The removal of waste and debris
- The partial roll back of the sedum blanket on roof
- The removal and setting aside of paviors to make good for re-installation
- The removal and setting aside of ballast on the roof area in bags

Ingleton Wood and Bauder will conduct an inspection next Monday which will determine the remedial works required to the roof area as indicated in yellow below.

The drying works are progressing slowly on all of the floors. The underfloor heating is now in the final stages of being fixed and the full replacement of the manifolds on the LG and UG floors is being processed.

We are still awaiting final confirmation of the reparation works/timeline and hope to provide an update soon. We recognise that this continues to be a challenging situation for our families - it is for us as well - and we are grateful for your ongoing support for our school. This remains an extremely complex matter and it is currently in the hands of the insurance companies, which unfortunately takes time. Please be assured that we continue to do everything we can to expedite the situation. We appreciate that you may have some questions or comments, so we have created a Google form to record your feedback, which can be accessed here. We will group the submissions into key themes and address them in our next communication.

Warm regards,

Alison Moller

Executive Headteacher
