No. of NQTs	5
No of pupils at ASC	386
No of children fitness tested	456
No of kids improved FT results	408
Competitions entered	13 + 2 leagues

PE and Sports Premium Funding Review 2018-19

- **Qualified sports coach from Moving Matters**

- *To ensure all classes receive high quality PE lessons every week*

A qualified sports coach delivers one lesson a week to all key stages within the school. All children receive a high quality PE lesson enabling them to:

- develop competence to excel in a broad range of physical activities
- be physically active for sustained periods of time
- engage in competitive sports and activities
- lead healthy, active lives

Each lesson is planned and delivered in line with the national curriculum and provides and promotes progress for all abilities.

Sports covered in the PE curriculum are: Basketball, Handball, Hockey, Football, Gymnastics, Athletics, Fitness, Cricket, Tennis, Netball, Lacrosse and Dodgeball.

Last year elements of the daily mile were incorporated into PE lessons. Children would typically begin their lessons with a timed run. This will be further extended in 19/20 with the introduction of Marathon Kids where children measure distances run and build up to achieving their goal of running a marathon over the course of the school year.

The impact of PE in school can be measured through child progress in health and fitness. The children were tested at two points over the course of the year by the sports coach and results showed good overall improvement in different aspects of fitness - speed, long distance running and strength.

Sports clubs provided by sports coach

- *To provide additional sports opportunities outside school hours*

Each term four sport afterschool clubs are run between the two sites of the school. These clubs provide an opportunity for children from all year groups to participate in extracurricular sport and activities. This year 300 children have participated in afterschool clubs. These clubs have often been oversubscribed.

Having specialised sports afterschool clubs means that the children have the opportunity to participate in high quality sport after school and also to develop skills that they may not otherwise have the opportunity to do within the PE curriculum e.g. American Football.

The afterschool clubs have also lead to a number of children to then continue with sporting opportunities outside of school.

Last year the school also had two football teams which played in the Lambeth & Southwark Primary School leagues. The boys and girls team provide further opportunities for 40 children to participate in football training and to take part in a competitive league.

Training for teachers from Moving Matters

- *To develop teachers' skills in teaching PE*

Class teachers and children have benefited having a specialised sports coach within the school as they are able to observe high quality PE in action, team teach if necessary and then plan the lessons together with a specialised coach. Government guidelines stipulate that children should have 2 hours a week of physical activity within school and class teachers are therefore responsible for delivering a second session of PE each week. The sports coach has been able to support in this through shared planning and support in how to deliver high quality PE lessons.

Schools direct students are required to have taught PE lessons as part of their course. At Julian's, students observe lessons, team teach and then teach their own lesson to develop their knowledge and understanding of PE as well as expertise in certain skills and activities.

Sports competitions

- *To help extend children's PE skills and enable children to experience competitions*

Sports competitions are a very important part of the PE curriculum within school. In 2018-19 the school have participated in 15 competitions and the children therefore had the chance to compete against other schools in a wide range of sports. In many of the competitions Julian's had two teams entered which increased the number of children able to take part in competitive sport and to represent the school. Julian's enjoyed a high level of success – winning the girls' football league and Year 4 Tag rugby and finishing in the top 5 in 10 out of 15 competitions.

The Saturday football teams also had a very successful year. The girls' team won their division, winning every single match and gaining promotion. The boys' team competed in the A division and came 5th as well as finishing 2nd overall in the Lambeth and Southwark 7 a side competition. They also represented South London at the Inner London 7-a-side tournament.

Places at after school clubs

- *To ensure children who are entitled to Pupil Premium funding can access sports clubs*

Children who are entitled to pupil premium funding are given priority to participate. This means that pupils who may not usually get the chance to access a sports club outside of school are able to participate and improve their skills in a particular area. This year alone there have been over 100 pupil premium children accessing sports afterschool clubs.

Competitions entered

1. Year 4 Football
2. Year 5/6 Netball
3. Year 5/6 Tag Rugby
4. Year 5/6 Swimming Gala
5. KS1 Multi Skills
6. Year ¾ Swimming Gala
7. Year 5/6 Girls Football
